Terms and conditions

Delivery

Ex-works at our workshop in Verona

Lead time

60 days after order confirmation

Warranty

Serimac warrants that the truck will conform with its intended design specifications at the time of sale, and be free from defects in material and workmanship related to our reconditioning for **six months or 1.500 working hours**—whichever comes first, from the startup of the product.

The warranty only covers the supply of parts recognized as defective by Serimac, and labor performed by Serimac or their service dealers.

The warranty does not cover:

- Parts subject to normal wear—such as filtering and braking elements, piping in general, tires, fuses, light bulbs, glass...
- Damage from misuse: Overloading, improper maintenance, accidents, off-spec fuels/lubricants, unapproved modifications.
- Any components or spare parts not installed on the truck at the time of sale or supplied by Serimac.
- Electrical system faults, unless directly caused by Serimac.

Startup

Serimac will handle the startup of the equipment, as well as provide training for its maintenance and correct usage
